TIM

Purity, clarity and mastery.

These monumental pieces marked Bomma's entry to the world of top-level lighting design and set us on our path. Their sheer weight and size reaches the limits of what can be achieved by free-form mouth blowing. Unique world-wide and displaying the subtle variations of hand craft, these impressive lights embody design simplicity and glassmaking mastery.

TIM pendant large

Design by
Olgoj Chorchoj studio

All Bomma products are hand-made from mouth-blown lead-free crystal. Therefore any small bubbles, non-melts and irregularities in the glass are both proof and a characteristic feature of this traditional craft.

The Tim Collection is produced in two colors - clear and smoke. The smoke color is made by underlying colored glass technology. Thanks to the manual process of blowing underlay glass, each piece is an original. Individual products may vary slightly in intensity, hue or even color. This is an accompanying characteristic of the traditional underlay glass technology.
